

DEREK GALEAS

Mobile Developer (React Native / Expo) | Software Engineer

El Progreso, Yoro | 9671-3155 | dhenrygk12@gmail.com | linkedin.com/in/derek-galeas-00ba83358 | github.com/DHK2001

PROFESSIONAL SUMMARY

Software Engineer focused on mobile and frontend development. Experienced building and maintaining iOS and Android applications with React Native, Expo, Swift, Flutter, React, Next.js, API integrations, responsive UI, and application data flows.

WORK EXPERIENCE

Mobile Developer (React Native / Expo)

April 2025 - Present

Sans Services

- Build and maintain mobile features for iOS and Android from a shared React Native, Expo, and JavaScript codebase.
- Transitioned with the team from full-time iOS development to cross-platform mobile development using React Native and Expo.
- Apply native mobile experience with Swift, Xcode, Android Studio, and platform-specific debugging to solve mobile issues.
- Collaborate with cross-functional teams to improve app performance, UI quality, and user experience.

Frontend Developer

January 2025 - March 2025

Project Collaboration

- Contributed to web projects using React, Next.js, HTML, CSS, TailwindCSS, and TypeScript-oriented UI patterns.
- Developed a QR code generator with customization options for colors, borders, dot patterns, and download output.
- Debugged and fixed frontend issues to improve usability and consistency in an existing web application.
- Collaborated remotely under a lead freelancer across multiple client-focused frontend tasks.

Mobile Developer Intern

April 2024 - September 2024

Sans Services

- Maintained iOS and Android applications by fixing bugs and improving user interface details.
- Worked with the mobile development department using Android Studio, Xcode, and platform testing workflows.
- Collaborated with developers to support app maintenance and mobile UI improvements.

Mobile Developer (Flutter)

August 2022 - September 2023

Grupo Incova

- Developed and maintained cross-platform mobile applications for Android and iOS using Flutter and Dart.
- Led messaging functionality in an existing application, covering frontend implementation and backend integration.
- Integrated new UI designs into existing application logic and maintained MongoDB data flows for app features.

EDUCATION

- Bachelor's Degree in Computer Systems Engineering - Unitec, San Pedro Sula, Honduras (2019 - 2024)

SKILLS

- Mobile: React Native, Expo, Swift, SwiftUI, UIKit, Flutter, Android Studio, Xcode
- Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, TailwindCSS
- Backend/Data: API integration, REST APIs, MongoDB, Firebase Realtime Database, JSON data flows
- Tools: GitHub, Postman, VS Code, platform debugging, responsive UI implementation

SELECTED PROJECTS

- Movie App: React Native, Expo, TypeScript, TMDB API, bottom navigation, search, detail screens, custom hooks, typed API responses.
- Expense Tracker App: React Native, Expo, JavaScript, Firebase Realtime Database, CRUD operations, FlatList rendering, add/edit/delete flows.
- Weather App (SwiftUI - VIPER Architecture): SwiftUI, API integration, 5-day forecast, local JSON fallback, VIPER separation of concerns.
- Portfolio Website: Next.js App Router, TypeScript, TailwindCSS, responsive layout, light/dark theme, project showcase, certificate viewer.

CERTIFICATIONS

- React Native - The Practical Guide [2025] - Udemy

LANGUAGES

- Spanish: Native
- English: Professional working proficiency
